Restaurant support services

✓ Higher-than-planned cumulative retained services sales driven by focus on annual contract orders from a restaurant close-support perspective

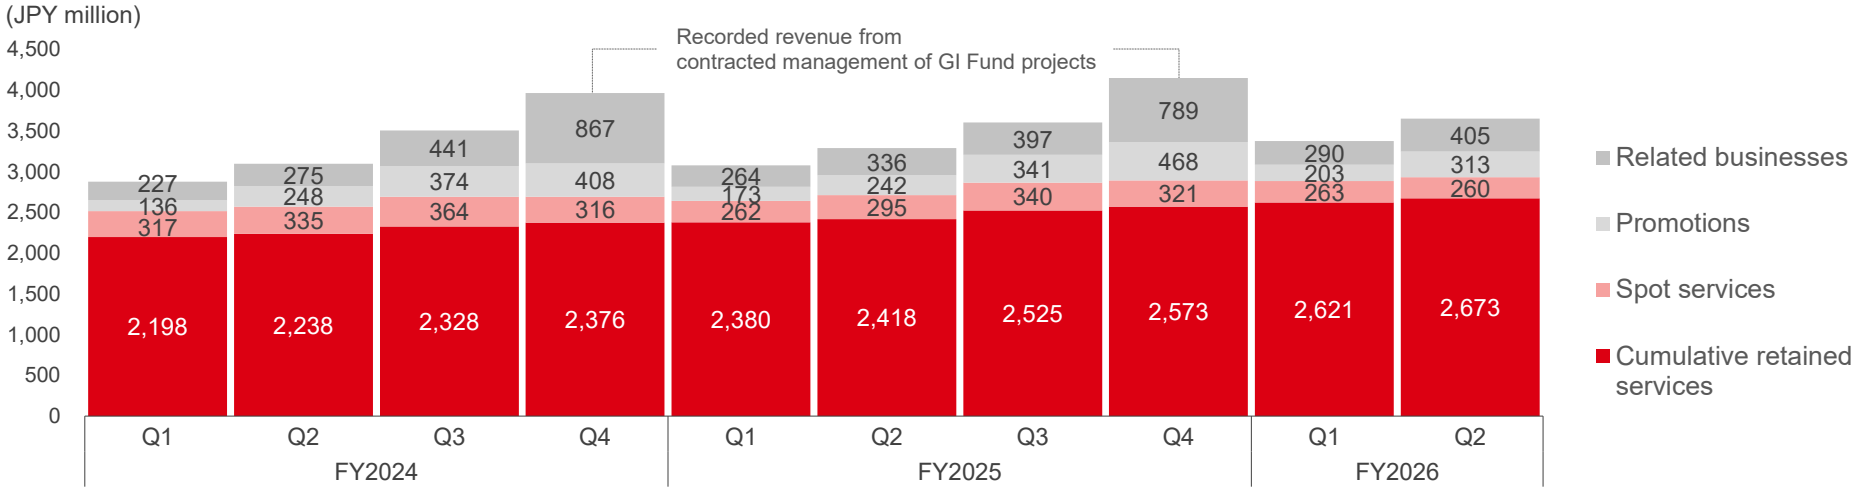

Renaming of “Restaurant promotion services” to “Restaurant support services” from this fiscal year, reflecting the expansion of service domains from promotional support to operational and management support, and anticipating further expansion of support areas based on the “Medium-Term Management Plan 2028”. Only a name change with no change to the scope of aggregation; figures for the prior-year period are also presented under the new name.

Promotions

✓ Increase in promotional sales mainly for national and local governments

Related businesses

✓ Increase in sales primarily driven by the kitchen appliance store “Tenpos Gurunavi”

Consolidated cost breakdown

Other	388	**450**	16.0%

Cost of Sales

- ✓ Increase in outsourcing expenses mainly due to sales expansion
- ✓ Increase in depreciation costs due to the accumulation of fixed assets

SG&A

- ✓ Slight increase in personnel expenses: increased sales headcount in the restaurant support domain, offset by controlled hiring in other areas due to improved operational efficiency, etc.
- ✓ Increase in rent expenses due to higher usage and price revisions of rental systems, as well as one-time factors associated with head office relocation, etc.
- ✓ Increase in advertising and promotion expenses related to implementing various campaigns and generating leads for new member restaurants

Consolidated balance sheets

- ✓ Executing balance sheet management by comprehensively considering three financial metrics to achieve both “reduction of capital cost” and “financial soundness”

Sustainability 1 - Basic policy -

Focusing on the food service market, Gurunavi endeavors to increase corporate value through the provision of value to society, based on the principle held by Gurunavi since its founding that corporate activity should itself be social contribution.

Consequently, regarding sustainability, as with our management policy, our basic policy is to continue to be a company that contributes to the realization of a sustainable and better society by continuing to provide new value to the world through the exploration of all food possibilities and connecting various people, things and events through food, based on our purpose, “Food: Satisfying People and Creating Connections”, which in turn is based on the spirit of “Protecting and nurturing Japanese food culture”, which has been with us since our founding.

(Details) See the Corporate Governance Report
https://corporate.gnavi.co.jp/en/profile/governance/

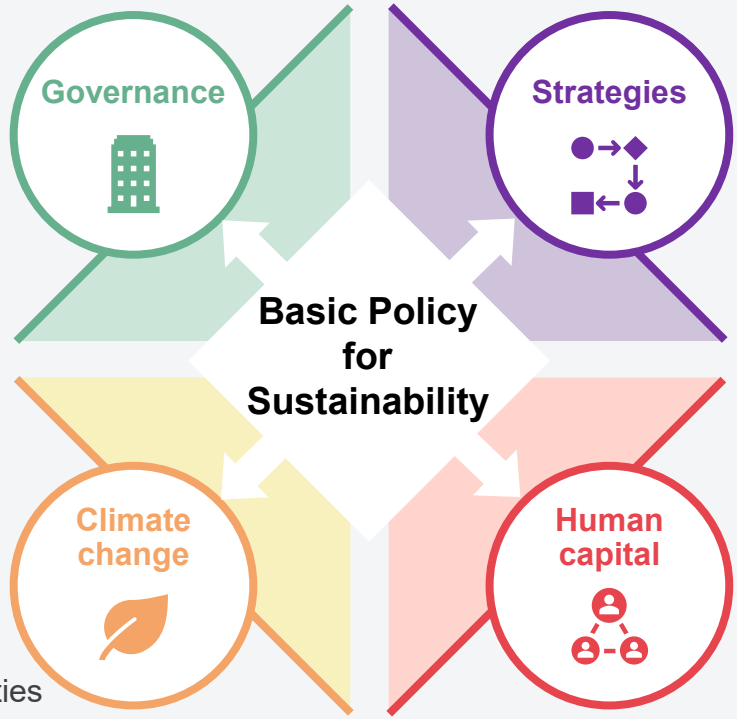

Sustainability 2 - Outline of initiatives -

Establishment a system related to sustainability

Company-wide promotion system headed by the Corporate Planning Department

Identifying important issues

Identifying materiality related to sustainability

Identifying risks and opportunities

Identifying important risks/opportunities based on two scenarios:“1.5℃ / 2℃ scenario” and a “4℃ scenario”

Establish “HR Policy”

Clarifying views on human capital management to further reinforcement of initiatives

Sustainability 3 - Establish a system -

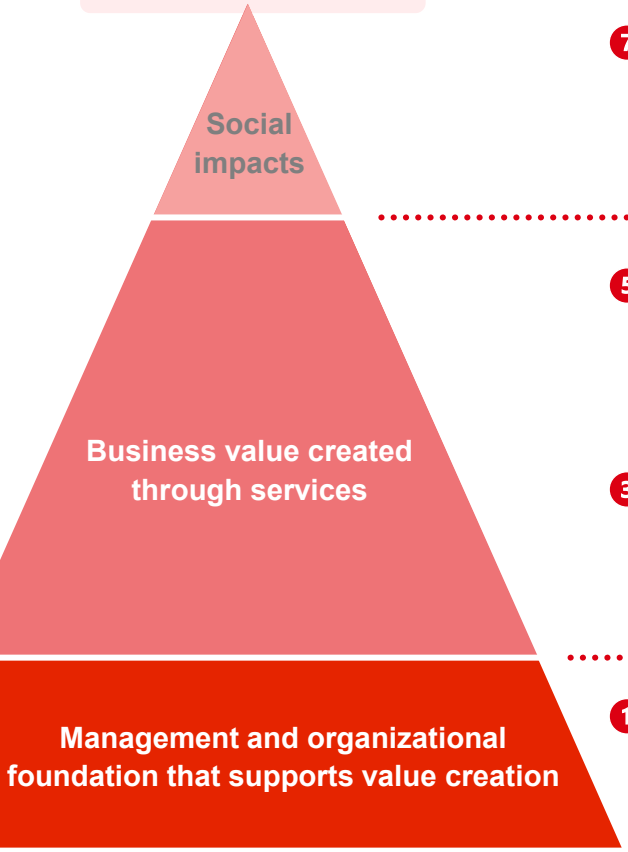

Governance and risk management system

Headed by the Corporate Planning Department, working in collaboration with the Compliance & Risk Management Committee and other related departments, Gurunavi implements company-wide initiatives regarding the identification of important sustainability related issues, the identification and identification of risks, and the consideration and execution of corresponding measures.

Sustainability 4 - Identifying important issues -

Embodying Purpose
Food: Satisfying People and Creating Connections

8 materialities (important issues)

7 Reducing the environmental burden of Gurunavi and the food service industry

Reduce the burden on regional environments by contributing to reduced food waste and conserving resources.

8 Popularization and passing down of Japan's excellent food culture and technologies

Contribute to the realization of a rich society through food by popularizing and passing this down to later generations Japan's food culture and the techniques that support it.

5 Optimization of the overall food service industry value chain

Realizing a sustainable food service industry development within the changes in social environment, including climate change

6 Promotion of regional communities through food

Unearthing and widely transmitting the attraction of a region through its food

3 Supporting evolution into sustainable restaurant management models

Expanding the value and services that support sustainable profit generation and improvements in working environments for restaurants

4 Protecting consumers safe, secure, and enriched food experiences

Along with creating conditions that allow consumers to select restaurants conveniently and securely, proposing various ways to enjoy food.

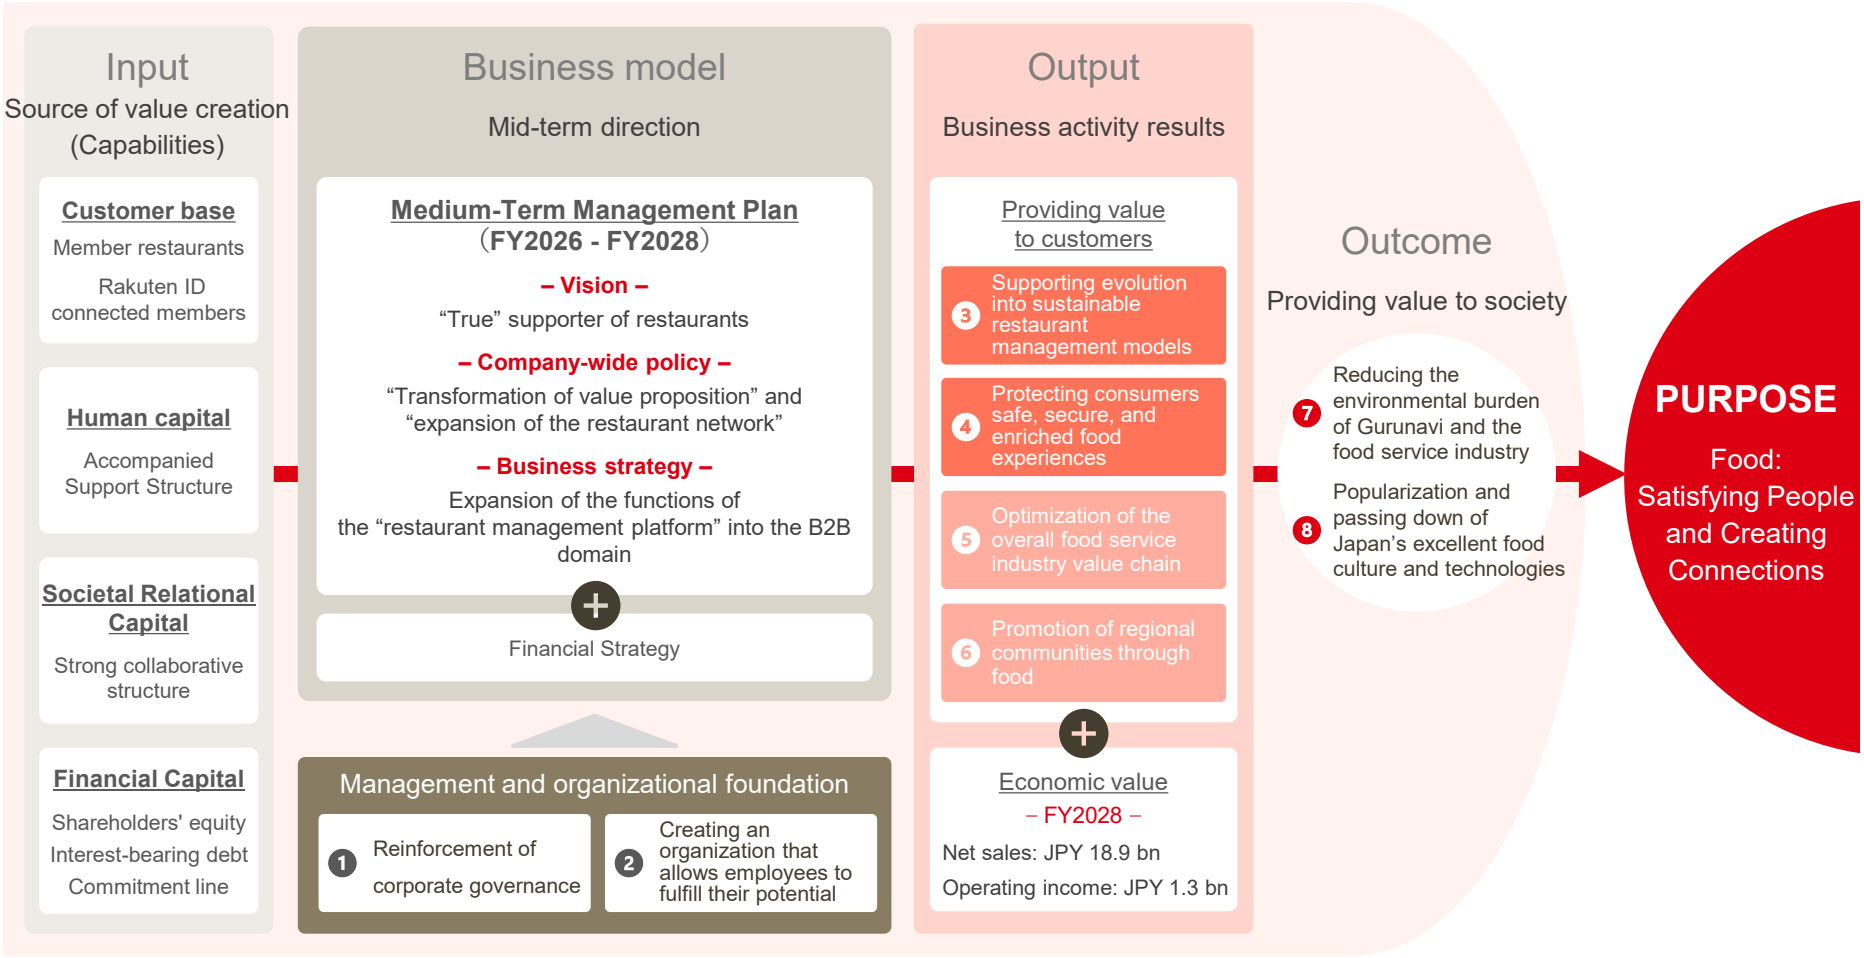

1 Reinforcement of corporate governance

Living up to the trust of all stakeholders

2 Creating an organization that allows employees to fulfill their potential

Working to improve the internal environments and develop nurture human resources

Sustainability 5 - Value Creation Process -

Sustainability 6 - Identifying risks and opportunities -

The scenario analyses considered a “1.5℃ / 2℃ scenario” and a “4℃ scenario”. As a result, the main risks and opportunities in relation to climate change have been identified as follows, and we are considering and executing initiatives to address them.

Category			Overview of Risks and Opportunities	Main Initiatives
Risks	Transition risks	Policies/laws and regulations	Increased costs accompanying the reinforcement of regulations related to CO2 emissions	- The impacts related to these risks are understood to be limited due to the characteristics of our business - Along with energy-saving operations at offices and data centers, we will aim to control CO2 emissions through “Hybrid workstyle”
		Market	Reduced demand for our services accompanying heightened environmental awareness among consumers	- Continuous reviews of information and content posted on “Rakuten Gurunavi” in line with changes in consumer needs - Commencing work to build businesses/services that will contribute to the optimization of the overall food service industry in Japan
		Reputation	Diminished reputation among stakeholders due to late responses to climate change	- Continued initiatives to enhance disclosure of climate change response information
	Physical risks	Acute	Impacts on our business operations due to increased severity of natural disasters such as typhoons and floods, etc.	- Completed construction of remote working mechanisms and environments that are not tied to work locations - Alleviation of impacts by using multiple data center sites - Promotion of considerations for appropriate BCP reviews according to business content and environmental changes
		Acute	Reduced demand for our services due to increased severity of natural disasters such as typhoons and floods, etc.	- Recognition of the need to build an optimal business portfolio (acquisition of revenue sources other than support for restaurants)

Established “HR Policy” in April 2024, which will serve as the basic policy for human capital management

HR Policy

The “Future of Food” connected by “Our Growth”

We will create a strong Gurunavi through which the development of individuals who can think, learn, and create independently, will pioneer the enriched future of food. Based on this belief, Gurunavi will work closely with employees in all aspects of the “challenges” they face to support their “growth”, and pool the strengths of individuals, in order to continue to evolve into a company where human resources with an abundance of ambition, who will confront the potential of food in earnest, will “congregate and develop”.
