Results for the Second Quarter of FY2026

kubell Co., Ltd. (TSE Code:4448)

August 14, 2026

Executive Summary

Earnings forecast revised, expecting steady profit generation

.... P.3

Revenue to grow +13 - +15% YoY, EBITDA to reach 1.5 - 1.7 billion yen

EBITDA progressing at a strong pace, exceeding the initial full-year forecast

.... P.14

Achieved a significant profit increase of +60.6% YoY, driven by revenue growth

Consolidated revenue remained solid at +17.1% YoY

.... P.14

Revenue in the BPaaS domain continued its strong growth at +84.0% YoY

Rolled out new features and services utilizing AI

.... P.8–9

Implemented AI features in Chatwork, and launched the Chatwork Social Insurance and Labor Consultant AI Agent business

Revision of Forecast for FY 2026

- As the fiscal year progresses, we are revising our approach to earnings forecasts, showing a range rather than a specific growth rate.
- Revenue are expected to grow **13.0% to 15.0% YoY**, driven by strong growth in BPaaS.
- We forecast a significant increase in **EBITDA to JPY 1,500mn - JPY 1,700mn**, and **profit attributable to owners of parent to JPY 456mn - JPY 753mn (+112.2% - +250.5% YoY)**.

Unit: JPY million	FY 2025 actual	FY 2026 Previously announced forecast	FY 2026 forecast	YoY
Revenue	9,529	YoY +13%~	10,768 ~ 10,958	+13.0%~+15.0%
Gross profit	6,603	-	7,480 ~ 7,670	+13.3%~+16.2%
EBITDA	1,371	1,500~	1,500 ~ 1,700	+9.4%~+24.0%
Operating profit	485	-	620 ~ 918	+28.0%~+89.3%
Ordinary profit	458	-	615 ~ 913	+34.4%~+99.4%
Profit attributable to owners of parent	215	-	456 ~ 753	+112.2%~+250.5%

Second Quarter of FY2026 Results

01 | Major Topics

Topic (1) Number of Client Companies Surpassed 1 Million, ARR Exceeded 10 Billion Yen

- Number of Client Companies exceeded 1 million 15 years after the launch of the Chatwork service. We have established a solid foundation as a **business infrastructure for workers**.
- Leveraging 1 million customer touchpoints, we will promote the cross-selling of BPaaS, aiming to become the **No.1 BPaaS company for SMEs**.

Exceeded

Customer Base of 1 Million Companies

Customer touchpoints deeply embedded in the daily operations of SMEs

Cross-selling of BPaaS

Highly efficient expansion of ARPU and LTV by rolling out to existing customers

No. 1 BPaaS Company for SMEs

Transforming the customer base of 1 million companies into the growth engine for BPaaS

Transforming the customer base of 1 million companies into the growth engine for BPaaS

Topic (2) Implementation of AI Features into Chatwork

- Released AI features in Chatwork, including AI-driven summarization and draft creation, distribution and commentary on labor and employment news, and document creation.
- Providing these necessary features precisely **because it is a business chat used on a daily basis**. We plan to expand the features in the future based on user feedback.

AI Summarization

Enables users to **instantly catch up** on accumulated unread messages.

Significantly reduces the time required to grasp the situation.

AI Draft Creation

AI **supports message creation**.

Enables the effortless creation of messages tailored to the specific situation.

AI Labor & Employment News / AI Explanation & Analysis / AI Document Creation

Automatically collects news regarding legal revisions and system changes, carefully selecting and delivering the key points.

Analyzes and reports using **"Expert Analysis"** and **"Easy-to-understand Explanation"** features tailored to the intended use.

AI **supports the creation of documents** for sharing with advisory clients and internal teams.

Topic (3) Launch of the Chatwork AI Agent Business for Social Insurance and Labor Consultants

- Developed and launched an **AI agent for social insurance and labor consultants**, leveraging the expertise gained from supporting labor operations and social insurance and labor consultant operations through TAXITA.
- AI agents will take over simple tasks, enabling the consultants to focus on **specialized and essential tasks** such as guarantees, certifications, and dialogue with clients.

Background to Commercialization

Value Proposition Shifting the focus of work

Built and operated at a high security level.

→ **Minimal anxiety** regarding implementation and operation, even for Social Insurance and Labor Consultants handling highly sensitive information.

Towards the Continuous Creation of New Businesses

We will continuously deploy "incubation" initiatives to commercialize the operational and AI assets cultivated internally.

Topic (4) Major Services Earned High Evaluations

- Chatwork ranked 1st overall in the ITreview "The Best Software in Japan 2026." It achieved the **highest rating in user satisfaction**.
- Secure SAMBA and Chatwork Assistant also gained numerous No. 1 rankings in document request ranking, **backing up robust demand**.

Major services achieved No. 1 in both aspects of "Satisfaction" (ITreview) and "Demand" (document requests).

Demonstrated competitiveness across the entire portfolio, including SaaS (Chatwork, Secure SAMBA) and BPaaS (Chatwork Assistant).

Topic (5) Relocation of the Tokyo Head Office

- Effective July, the Tokyo head office was **relocated to WeWork KDX Toranomon 1 Chome**. The new location was selected with the aim of consolidating scattered office floors and realizing a more efficient way of working.
- By relocating between WeWork locations, **we achieved a low-cost move**. The impact on the earnings forecast for the current fiscal year is minimal.

Breakdown of Segment Information

- Revised segment information from the FY2025 disclosure, changing it to the "Platform Business." Divided into the "SaaS Domain" and "BPaaS Domain".
- Clarify the profitability of each business by clearly indicating the stock-based^{*1} and flow-based^{*2} revenue models in each domain.
- Effective from this disclosure, the business operations related to atena Inc., which joined our group this April, have been added to the BPaaS domain.

		Stock-based	Flow-based
Platform Business	SaaS Domain	• Chatwork • Chatwork Storage	• Chatwork advertisements and sending customers • Chatwork others • SaaS others (Initial cost, Issuance fee, Equipment sales)
	BPaaS Domain	• TAXITA • Chatwork Personnel Management • Chatwork Attendance Management System • Chatwork Personnel Evaluation System • Chatwork Invoice Receipt	• Chatwork Personnel Management (Initial cost, Year-end adjustment) • Constructing and Operating of Chatwork Personnel Evaluation System (Initial cost, consulting) • Chatwork Mail Receipt

*1 A business model that generates stable revenue through continued use by customers, such as subscriptions (monthly/yearly charges).

*2 A business model that earns revenue from one-off or occasional transactions.

Results Highlights (Q2)

- Revenue performed steadily, increasing **17.1% YoY**.
- Driven by revenue growth, EBITDA achieved a significant profit increase of **+60.6% YoY**.

Unit: JPY mn	Q2 '25 (Same period last year)	Q1 '26 (Previous period)	Q2 '26 (Actual)	YoY	QoQ
Revenue	2,297	2,587	2,689	+17.1%	+4.0%
SaaS Domain	1,947	2,038	2,044	+5.0%	+0.3%
BPaaS Domain	350	548	645	+84.0%	+17.7%

Chatwork Churn Rate

*1 Average revenue per user for paid Chatwork services.

Gross Profit / Gross Margin

- Gross profit grew steadily by **24.9% YoY** to JPY 1,919 million, following revenue growth.
- Gross margin continued to maintain a stable level from the previous quarter at 71.4%.

Operating profit/loss and EBITDA

- Continued improvement in **Operating Income**, reaching **JPY 276 million**, driven by the ongoing optimization of our cost structure, primarily in advertising expenses and outsourcing expenses.
- EBITDA increased to JPY 469 million**, and the **EBITDA margin reached 17.5%**, achieving a level exceeding the target range (10–15%) for 2026 set in the Medium-Term Management Plan.

Operating Profit

Unit: JPY mn

EBITDA

Unit: JPY mn

Expenses

- Personnel expenses increased due to an **expanded operator headcount** alongside the revenue growth in BPaaS. Personnel expenses are expected to continue trending at a similar pace going forward.
- The expense ratio to revenue for advertising expenses and outsourcing expenses remained at **low levels** due to ongoing **efficiency improvements**.

Cost Structure

Unit: JPY mn

Cost Ratio to Revenue

Unit: JPY mn

Expenses to Revenue Ratio

- The Direct Cost ratio rose slightly due to the reinforcement of the BPaaS service delivery system and the increase in operators.
- The S&M and G&A expense ratios declined further from the previous quarter, driven by productivity improvements.

Direct Cost^{*1}

R&D^{*3}

S&M^{*2}

G&A^{*4}

Marginal Profit, EBITDA, Operating Profit

*1 The total cost of sales based on management accounting, excluding depreciation expenses, including server costs, transaction fees, and personnel expenses related to BPaaS operators and customer support.

*2 Sales and Marketing ratio. It refers to the total sales and marketing expenses under management accounting, excluding depreciation expenses, including promotional costs, personnel expenses for sales staff, and related expenses.

*3 Research and Development ratio. It refers to the total R&D expenses under management accounting, excluding depreciation expenses, including personnel expenses for engineers involved in service development and related costs.

*4 General and Administrative ratio. It refers to the total G&A expenses under management accounting, excluding depreciation expenses, including personnel expenses and related costs for corporate departments.

Number of Employees

- The total number of employees for the entire group increased by **89 from the previous quarter**. This was driven by an increase in operators accompanying the expansion of the BPaaS business, a key growth driver, as well as the joining of new graduate hires.
- Hiring of BPaaS operators is progressing smoothly as **planned in line with sales expansion**. Additionally, 29 part-timers from atena Inc. were added as BPaaS operators this quarter. We will continue hiring to support future business growth, while **proactively improving productivity via AI utilization and business process standardization** to build a highly profitable business model.

MISSION

Making work more fun and creative

People spend over half their lives working.
That time is not just for earning money.
We help companies create environments that enable as many employees as possible to enjoy their work more and express their creativity fully and freely.

VISION

Empowering everyone to work a step ahead

We want to provide a better way to work for diverse people around the world, whether IT-savvy or not, regardless of their industry, age or gender. Rather than racing forward, we keep one step ahead, making it easy for anyone to join. That's how we can update working life worldwide.

Expanding the World of Work 4.0

kubell's target

Our mission is to bring Work 4.0 to more people and advance the evolution of work

Our Business

- Operating the business of Japan's largest business chat, 'Chatwork'. We are a pioneer in business chat, with the **largest number of users in Japan**^{*1} and adoption by more than 1,003,000 companies^{*2}.
- Utilizing our extensive customer base and platform, **BPaaS**, which is a cloud service that provides digitized business services themselves.

Business Chat 'Chatwork'

- Number of domestic users :No.1**^{*1} 97% of paying users are SMEs
- Number of client companies :Accounts for 1/5 of Japan, over 1,003,000**^{*2}
- Number of users :8,230,000**
- A platform used daily by people in all industries and all occupations**

BPaaS 'TAXITA'

Promoting DX by accepting work via chat

*1 Nielsen NetView Customized Report, July 2025: Monthly Active User (MAU) Survey. kubell Co., Ltd. selected 44 services for this survey, including Chatwork, Microsoft Teams, Slack, and LINE WORKS.

*2 As of June 2026

Business Overview

Other Businesses

Powered by MINAGINE

MINAGINE 勤怠管理

HR professionals provide hands-on support to achieve flawless, compliant attendance management.

Chatwork Attendance Management is a cloud-based system that enables centralized management of time tracking, work hour aggregation, and various leave requests. It offers robust features such as capturing PC log data and preventing time record tampering, helping protect companies from a wide range of labor-related risks.

An advertising medium optimized for SMEs

Chatwork Advertising allows you to directly reach SMEs through the Chatwork platform, which they use daily. You can target by industry and company size, enabling efficient brand awareness building and lead generation.

Fully automate complex payment operations

"Chatwork Invoice Receipt" is a service that seamlessly automates the entire process from collecting invoices to scheduling and executing bank transfers. By linking with bank accounts, payments are completed with zero manual work, streamlining accounting operations.

Powered by  セキュア SAMBA

The online storage solution suited for Chatwork users

Chatwork Storage is a cloud storage service that allows easy file sharing anytime, anywhere, as long as an internet connection is available. It supports secure information sharing both inside and outside the company, and helps improve operational efficiency through organized document management.

Powered by MINAGINE 人事評価

Providing everything needed to successfully implement a personnel evaluation system

Chatwork HR Evaluation is a support service for building and operating personnel evaluation systems, offering only the truly necessary features at a reasonable price point. Clients can flexibly select from a range of options according to their needs, including operational support and the introduction of cloud systems to streamline management.

Powered by  atena

Fully digitizing all internal documents

"Chatwork Mail Receipt" is an end-to-end cloud service that covers everything from mail digitization and receipt notifications to PDF conversion, forwarding, and disposal. It enables users to check and process mail via chat or the web, reducing the work hours required for commuting to the office to check mail or for internal distribution, thereby streamlining mail operations.

Milestones to Date

2015–2021 Fundraising and Growth of Business Chat Operations

- 2011: Chatwork released
- 2015–2016: Raised a total of JPY 1.8 billion
- 2019: Listed on the Tokyo Stock Exchange Mothers Market (now Growth Market)
- 2021: Conducted a public offering through an overseas placement, raising approximately JPY 2.0 billion
- 2021: Established Chatwork Storage Technologies, Co., Ltd. (now kubell storage, Co., Ltd.)

Consolidated revenue:
JPY 9,529million

2023 onward Expansion into the SME DX Domain

- 2023: Acquired 100% of shares in MINAGINE Co., Ltd.
- 2023: Launched the Chatwork Assistant (now TAXITA)
- 2024: Changed our name to kubell Co., Ltd.; established kubell partner Co., Ltd.

Social Context

- Japan is grappling with a severely low birth rate and extreme demographic aging. Against this backdrop, the primary strategy to support social welfare and enhance international competitiveness is to **improve labor productivity**.
- Small and medium-sized enterprises (SMEs), which account for 69.7%^{*1} of the labor force, have long experienced stagnant labor productivity, which is the **root cause of the overall low labor productivity**.
- Investment in IT (digital transformation [DX]) is essential** to improve labor productivity, but IT literacy has proved a major obstacle that has hindered such investments.

Japanese society aging at an unparalleled pace worldwide

Highest aging rate in the world, at **29.3%**^{*2}, in 2020

Labor productivity at SMEs significantly lower than at large companies

Labor productivity at SMEs trending sideways; gap with large companies continues to widen^{*3}

IT (DX) investment essential to improve labor productivity

SMEs that actively invest in IT enjoy significantly higher revenue and ordinary profit margins^{*4}

^{*1} "2025 White Paper on Small and Medium Enterprises" by the Small and Medium Enterprise Agency

^{*2} "2024 Population Estimates" by the Statistics Bureau of the Ministry of Internal Affairs and Communications

^{*3} 2025 "White Paper on Small and Medium Enterprises in Japan" by the Ministry of Economy, Trade and Industry

^{*4} "Current Conditions and Challenges facing Small and Medium Enterprises and Small Businesses" by the Small and Medium Enterprise Agency

Why DX does not Progress in SMEs

- A major challenge for SMEs is the lack of IT talent capable of driving digital transformation (DX), making it difficult for them to digitize operations.
- The scale of each company is small, and sales efficiency is low, so the number of vendors entering the market is limited, resulting in a lack of services that meet needs.
- As a result, approximately 80% of SMEs have yet to begin any DX initiatives.

The biggest obstacle to progress in DX is a shortage of IT personnel

HR shortages the main problem^{*1}

Very few SaaS vendors target SMEs as their primary customers

Only 6% of SaaS vendors mainly target SMEs^{*1}

DX still not progressing

Over 80% of SMEs have not yet begun DX initiatives^{*1}.

^{*1} Organization for Small & Medium Enterprises and Regional Innovation, JAPAN (SMRJ), "Survey on Promotion of DX among SMEs (December 2024)."

^{*2} Blossom Street Ventures「SMB is a hard road in SaaS」

Chatwork is a Unique SaaS that Actively Promotes DX for SMEs

- Chatwork has captured a **dominant position** as an SaaS for SMEs, supplying solutions to **1,003,000 companies** and boasting **over 8.23 million users**.
- Employees across all industries and in all occupations use the platform during their working hours. As a result, the platform has **substantially more user contacts** than other SaaS offerings.
- Leveraging these strong platform efficiencies, the company is developing revenue of peripheral services^{*1}. In FY2025, **these revenue surged 33.7%YoY**.

Overwhelming Presence with SMEs

Deployed at more than **1,003,000 companies**

96.8% of paid contracts with companies of 300 or fewer people^{*2}

● up to 300 people ● 301 people or more

Business Chat Functions as a Springboard for the Development of Peripheral Services

Revenue from peripheral services growing each year

^{*1} See business segment details in Appendix for segment information.

^{*2} As of June 2026.

Strengths of Chatwork

- This is a rapidly expanding market with ample room for growth; **the total addressable market is large**, and the adoption rate remains low.
- **The number of users increases in a compound manner via referrals**. This is due to the open-platform feature, which allows for easy connection to the outside world.
- Ongoing increases in functionality have enhanced product value. As a result, **ARPU^{*1} has continued to rise over the long term**.
- **The cost of switching to other tools is high**, and **the churn rate^{*2} is extremely low**, thanks to past history and the formation of business relationships.

**Business Chat's Rate of Adoption^{*3}
Remains Low**

**Number of Users Increasing
at a Compound Rate**

**ARPU Rising and High Retention Rate
due to Ongoing Increase
in Product Value**

^{*1} Average revenue per user for paid Chatwork services.

^{*2} Churn rate of the number of registered IDs, averaged over the 12 months

^{*3} Based on a study commissioned by Chatwork, n = 30,000, as of April 2025.

Overview of SMEs, Business Chat Adoption Rates

- SMEs represent a massive market, accounting for **approximately 70% of Japan's total workforce**. (Note: Accounts for 99.7% of companies)
- The adoption rate of business chat tools among SMEs, based on employee count, is **23.3%**. Compared to 45.7% among large enterprises, adoption remains low, indicating significant growth potential.

*1 Estimated by our company based on data from the Small and Medium Enterprise Agency's "Number of SMEs and Small Businesses (June 2021)" and the Ministry of Internal Affairs and Communications' "2021 Economic Census."

*2 Survey conducted by a third-party research agency commissioned by our company. Survey conducted in April 2025, n = 30,000.

Our Industry Positioning

- We have two major competitors, but each of the companies targets a **different core customer segment**.
- Because the market penetration rate for business chat tools remains low, each company is **independently developing its own market** within its respective domain.
- Competitor entries have **not had any negative impact** on our user growth.

A Clearly Different Target Segment from Competing Business Chat Tools

User Growth Remains Unaffected by Competitor Entries

About BPaaS

- BPaaS is short for Business Process as a Service. Rather than just software, BPaaS is a cloud service that provides business services themselves, allowing facilitating **cloud-based business process outsourcing (BPO)**.
- BPaaS, the next upstream layer from SaaS in cloud-based services, will be the **next trend**.

BPaaS is the main player in achieving DX in the majority market

- Choosing and mastering SaaS is **mainly done by advanced users** who are knowledgeable about IT.
- For the **majority market, which accounts for more than two-thirds of the population**, it is difficult to manage and use a variety of SaaS products with different usability.
- To achieve DX in the majority market, it is **effective to use BPaaS** to drive DX by winding up SaaS and AI for each business process and on behalf of customers.

SaaS

Solving business issues through DX on your own

Users suited to SaaS

Tech-savvy early adopters in IT

- Can select tools on their own
- Management and employees can use the tools efficiently

BPaaS

Requests for entire business process and DXing are also outsourced

Users suited to BPaaS

majority

Actively utilize SaaS and AI in the work we perform

- Difficulty in decision making to adopt SaaS
- Difficulty in using SaaS

Reasons Why Existing BPO Has Not Penetrated SMEs and Problem Solving by "TAXITA"

- Since existing BPO relies on a model premised on certain fixed costs, it is difficult to take on small and medium-sized projects from a profitability perspective.
- SMEs lack the time and human resources to handle requirements definition and business organization, making the preparation for outsourcing itself difficult.
- "TAXITA" has established a rare position that enables solving the issues faced by both the supply side and the demand side.

Reasons Why BPO Has Not Penetrated SMEs

Supply Side: Issues for BPO Providers

Small-lot projects are not profitable

Under a model premised on individual correspondence, small-scale projects are prone to falling below cost, making it difficult for providers to take them on.

Demand Side: Issues for SMEs

Tasks are personalized and difficult to carve out

Many tasks are not verbalized or manualized, meaning they are not in a state where they can be outsourced in the first place.

Problem Solving by "TAXITA"

A model that is viable even for small lots

Realizing low costs through sales and marketing to existing Chatwork customers

Since addressing customers through Chatwork is the main approach, customer acquisition costs are low, and operating costs are reduced by utilizing AI. Realizes a business model where profitability is established even with small lots.

Provision of standardized tasks

Providing outcomes regardless of the business process

By providing services in accordance with standardized business workflows, it is possible for customers to place orders for tasks regardless of differences in operations between individual companies.

Strengths of Our Business Structure

SME Market

- The scale of **each company is small, and sales efficiency is low**, so the number of vendors entering the market is limited, resulting in a lack of services that meet needs.
- Many SMEs have people who are unfamiliar with IT, and **many of them find it difficult to master technologies such as AI and SaaS on their own**.
- As a result, despite the large size of the market, it has become a "**black ocean**"^{*1} with few companies to enter.

Features of our business structure

Customer Expansion Driven by Network Effects

- Chatwork has established a system whereby its customer network expands naturally through word of mouth.
- A large market share is a valuable asset itself, and it leads to further competitiveness.

Efficient customer acquisition

Service Delivery Through BPaaS

- Realizing essential DX by operating AI/SaaS on behalf of people who are unfamiliar with IT
- Seamless implementation for those who already use Chatwork

Well-suited to SME characteristics

A Consistent Target Market

- All of our services are targeted at SMEs, and we cover a wide range of areas regardless of industry.
- Sense of security from the well-known and already used Chatwork brand

Easy Cross-selling

Superiority

A structure that minimizes customer acquisition costs and increases LTV per customer

Extremely high profitability per customer

^{*1} Like the deep sea where light does not reach, this is an untapped market with very high barriers to entry and difficult to compete, but if you can create a winning structure, you can gain a monopoly position.

^{*2} Life Time Value, refers to the cumulative amount of transactions made by one customer over a long period of time

Size of the Potential Market for BPaaS including business chat (TAM)

- The BPaaS market is by far the largest, with **non-core operations of SMEs valued at JPY 49.1 trillion**.
- The **core target market that has already manifested is worth JPY 345.3 billion**, and business growth potential is extremely high.

^{*1} Number of salaried workers: 51.37 million (National Tax Agency's FY2024 survey on private-sector salary conditions) x percentage of employees working in SMEs: 69.7% (2025 Economic Census by the Ministry of Internal Affairs and Communications) x average salary at SMEs: JPY3.92 million (Ministry of Health, Labour and Welfare) x average percentage of non-core tasks: 31.9% (estimated by the Company and others)

^{*2} TAM x percentage of business hour reduction through DX: 67.6% (estimated by the Company and others)

^{*3} SOM: SAM x percentage of small and medium-sized enterprises recognizing the challenges of DX but not yet addressing them: 48.2% (Small and Medium Enterprise Agency) x percentage of outsourcing costs among SME expenses: 13.0% (FY2006 Basic Survey on Business Activity conducted by the Ministry of Economy, Trade and Industry)

^{*4} Focusing on the percentage of SMEs considering DX initiatives: 16.6% (Small and Medium Enterprise Agency)

How Our Mission and Vision Drive the Business

MISSION

**Making work more
fun and creative**

By using business chat as an entry point, we are expanding our BPaaS business to take on non-core operations, **enabling people to focus on what they truly want to do.**

In the food service industry, that might mean focusing on making great food; in manufacturing, creating excellent products. As a result, **work itself becomes more enjoyable and creative**—enriching both people's lives and society as a whole.

VISION

**Empowering
everyone to work
a step ahead**

SMEs account for approximately 70% of the workforce but have struggled to advance in DX. By expanding our BPaaS offerings, **we enable DX without requiring SMEs to master IT tools themselves.**

By taking on the corporate functions of SMEs as a whole, we aim to dramatically boost productivity. In doing so, we will help sustain social welfare in the face of an aging and shrinking population, and contribute to building **a society where everyone can continue moving forward**—a society filled with hope for the future.

kubell's Positioning in the AI Era

The "SaaS is Dead" Framework and Its Impact on Chatwork

- The rapid evolution of AI technology has led to a growing industry view that "SaaS is Dead"^{*1} (the era of SaaS has ended), which is significantly impacting stock prices.
- As AI aggregates usage in core SaaS systems, core SaaS is finding seat-based pricing difficult to maintain, while Productivity SaaS faces intensified competition due to in-house development and replacement by low-cost services.
- Communication SaaS provides value through direct human use and will not be replaced by AI; instead, its value increases as a foundation for interacting with AI.

**Chatwork is a SaaS platform that structurally occupies a unique position
to benefit from the tailwinds of the AI era.**

^{*1} Became a hot topic after being widely covered by tech media and blogs, originating from a remark made by Microsoft CEO Satya Nadella on a podcast released in December 2024.

AI Contributes to the Evolution of Chatwork and the Improvement of Profitability in BPaaS

- Chatwork is benefiting from the advancements in AI, and there is significant potential for AI to utilize past conversation data. We aim to **improve ARPU by expanding its AI capabilities**.
- In the BPaaS, achieve simultaneous **expansion of revenue per person and improvement in operating margins** by utilizing AI to reduce manual workload.
- A structure where the megatrend of AI acts on the two businesses in different ways, **contributing to increasing corporate value from both revenue and profit perspectives**.

AI utilization in Chatwork

Unaffected by the "SaaS is Dead", Chatwork occupies a unique position, benefiting from the tailwind of AI.

Improving the Profitability of the BPaaS Business through AI Utilization

Simultaneously improve sales and productivity through AI investment

In the AI Era, the Strength of Distribution Channels Will Be a Key Competitive Advantage

- Development costs are dramatically reduced by the evolution of AI. The source of competitive advantage is shifting toward **the breadth of distribution channels (customer touchpoints)**.
- Chatwork currently exceeds 8MN IDs and continues to expand by PLG^{*1}. It possesses an overwhelming customer base that is **difficult for competitors to catch up with in a short period**.
- Our positioning, which enables the deployment of BPaaS through this powerful channel, provides **a structural advantage** in the AI era.

**Chatwork's Customer Network × BPaaS Deployment Capabilities
= Structural Competitive Advantage in the AI Era**

^{*1} It refers to Product-Led Growth

^{*2} It refers to customer lifetime value, representing the cumulative transaction amount generated by a single customer over the long term.

Customer-Specific Context Becomes a Differentiation Factor in the AI Era

- AI is trained on public information; if used without ingenuity, **it can only provide general answers**, making it difficult to achieve results.
- Just as a "new graduate from a top university" is not immediately ready to contribute upon joining, **providing AI with context information** such as operational background is essential to produce results.
- kubell is able to **collect vast amounts of business context** through its BPaaS business. This will become **a major competitive advantage** alongside the evolution of AI.

Reasons Why kubell Can Possess Context

Those who possess context maximize the benefits of AI

kubell, equipped with BPaaS operators, is positioned to increase in value alongside the evolution of AI.

Chatwork is a platform for humans and AI to work together

- We predict that the emergence of AI agents will put traditional SaaS in a difficult position (SaaS is dead). On the other hand, Chatwork, which handles business communication, will not be affected and will continue to play an important role within companies
- Technology will continue to evolve on a daily basis, but to use it effectively, a certain level of IT literacy is required. Through BPaaS, we aim to create a world where even users who are unfamiliar with AI and SaaS can benefit from technology.
- Chatwork will evolve from a communication tool to a "platform for humans and AI to work together" in collaboration with BPaaS operators and AI agents. We aim to be in a position to comprehensively support the promotion of DX in SMEs.

IR Email Distribution Registration

- To help you gain a deeper understanding of our company, we are distributing information **through various media channels** in addition to timely disclosures.
- **By registering for our IR email distribution**, you can conveniently access our IR information.

Second Quarter of FY2026 Results

Appendix1 | Medium-Term Management Plan

Medium-Term Management Plan

- Under the medium-term management plan ending in FY2026, we aim to establish our position as the **leading BPaaS company for SMEs** by 2026. Long-term, we will leverage our overwhelming share of the market among SMEs to roll out a **business super app**, which will be a platform on which users can manage many business tools.

Medium-Term Management Plan

- The financial targets of the medium-term management plan are **CAGR in Group revenue of 30% or more from 2024 to 2026, JPY 15.0bn, and an EBITDA margin of 10–15%, JPY 1.5–2.25bn, in 2026.**
- We anticipate continued revenue growth from business chat, aim for rapid revenue expansion in the BPaaS business (our next pillar of growth), and expect revenue contributions from new businesses.
- Initially, the targets were based on achieving the goal organically, excluding M&A, etc., but we revised it to include the implementation of M&A, due to an increase in the possibility of growth through **M&A roll-up strategy in BPaaS domain** in Q1 FY2025.

Group Revenue, EBITDA, and EBITDA Margin

Breakdown of JPY 15.0 bn in Revenue

Unit: JPY 100 mn

Our Approach to M&A Strategy

- We have consistently positioned business growth through M&A as a **key growth strategy**, and we will continue to actively promote it.
- Our two major themes are **advancing the Super App concept** to expand our product lineup using Chatwork as a platform, and **rolling up BPO operators to scale our BPaaS**.

Advancing the Super App Concept

Target profile: Providers of products and services that drive DX for SMEs, such as SaaS vendors.

Rolling Up BPO Operators

Target profile: Operators with strengths in online assistance and specialized areas like accounting and personnel management.

Continuously exploring opportunities to achieve non-linear growth

Click here for details

<https://www.kubell.com/ma/>

Medium- to Long-Term Targets

- Our medium- to long-term targets are an **EBITDA margin of 25–40%**, and an **operating margin of 15–30%**.
- By standardizing marketing and sales functions and strengthening Product-Led Growth initiatives, we aim to curb the S&M ratio and control the G&A ratio, thereby **building a highly profitable business structure while simultaneously sustaining strong revenue growth**.

	FY2024 Actual	FY2025 Actual	FY2026 Forecast	Medium- to Long-Term Targets
Direct Cost* ¹	18%	22%	20%	20-25%
Marginal Profit Rate	82%	78%	80%	75-80%
S&M* ²	32%	24%	22-25%	15-20%
R&D* ³	17%	18%	16-18%	15-20%
G&A* ⁴	23%	22%	20-22%	10-15%
EBITDA Margin	10%	14%	10-15%	25-40%
Depreciation and Amortization	9%	9%	9-10%	Around 10%
Operating Margin	1%	5%	5-10%	15-30%

*1 The total cost of sales based on management accounting, excluding depreciation expenses, including server costs, transaction fees, and personnel expenses related to BPaaS operators and customer support.

*2 Sales and Marketing ratio. It refers to the total sales and marketing expenses under management accounting, excluding depreciation expenses, including promotional costs, personnel expenses for sales staff, and related expenses.

*3 Research and Development ratio. It refers to the total R&D expenses under management accounting, excluding depreciation expenses, including personnel expenses for engineers involved in service development and related costs.

*4 General and Administrative ratio. It refers to the total G&A expenses under management accounting, excluding depreciation expenses, including personnel expenses and related costs for corporate departments.

Three Strategies of the Medium-Term Management Plan

- We are driving the **BPaaS strategy** to enhance the value of business chat as a **communication platform**, enabling various business expansions on this platform.
- Additionally, through our **incubation strategy** leveraging group assets and utilizing AI for research and development, we aim to create further core businesses and achieve discontinuous growth.

*1 SaaS growth strategy that is the focus of attention in the US, whereby products are used to attract customers. This style is distinct from the conventional growth strategy, of Sales-Led Growth.

Connection between Three Strategies

Based on business chat, we will continuously develop the BPaaS field and new businesses.

Action Plan for Achieving the Goals of Our Medium-Term Management Plan

Communication Platform Strategy

- Establishing a **company-wide marketing and inside sales platform that spans all services**
- **Promoting the PLG model^{*1}** and implement various growth measures to acquire new customers and convert them to paying customers
- Improving the customer experience for existing users and developing features that will lead to **seamless integration with BPaaS**
- Considering optimization of the **pricing plan**

BPaaS Strategy

- **Rapid scaling** while optimizing the balance between **customers (demand)** and **BPaaS Operators (supply)**
- **Driving productivity improvements** through process standardization and the development of AI agents and operation excellence
- Expanding the **breadth (area)** and **depth (expertise)** of our lineup and **evolve our business model**
- **Promoting continuous M&A activity in the BPaaS domain** to achieve non-linear growth (**roll-up strategy**)

Incubation Strategy

- **Developing new businesses** that contribute to improve productivity and promote DX in SMEs
- Expanding the R&D team to **develop AI agents and promote the use of AI across the company**
- **Full-scale use of AI and LLM^{*2}** utilizing CRM and data infrastructure, contributing to company-wide productivity
- Creating **a third pillar business** following business chat and BPaaS

Achieve the goals of the medium-term management plan

Establish a high-growth, financially stable management structure

^{*1} Product-Led Growth model, SaaS growth strategy that is gaining attention in the United States, and involves acquiring customers through the product. It is distinguished from traditional sales-led growth strategies, which are called SLG (Sales-Led Growth).

^{*2} Large Language Model, natural language processing models trained on large amounts of text data

Medium-Term Management Plan #1

Communication Platform Strategy

STRATEGY

PLG (Product-Led Growth)

- **Product-Led Growth (PLG)** is a SaaS growth strategy that is the focus of attention in the US, whereby products are used to attract customers. This style is distinct from the conventional growth strategy, of Sales-Led Growth.
- Zoom and Shopify are two examples of PLG, which achieves notably **higher levels of growth** than non-PLG. PLG requires a large user base and a service that spreads by word of mouth. Our service fits with a PLG growth strategy.

Process of Promoting the PLG Model

- Under the conventional SLG model, marketing gathers a list of potential customers and sales proceeds with the process of negotiating and receiving orders.
- In the PLG model, **free users are acquired through referrals and marketing**, and their usage data is collected and analyzed to **automatically** extract users who are likely to become paid users. Sales staff use this list to make proposals on how to utilize the service and promote sales negotiations and paid services.
- Our PLG model naturally generates both "**internal network effects** (for teams, departments, and the entire company)" and "**external network effects** (for business partners and partner companies)" through the use of our products. This double network effect allows the adoption to spread autonomously, and the fact that the introduction of paid services and additional licenses also progresses in a chain reaction is a major feature and advantage.

Evolving toward the most BPaaS-Friendly Business Chat

- In addition to expanding our market share to make Chatwork the de facto standard for business chat in the SME space, we will strategically evolve Chatwork into “the most BPaaS-friendly business chat” in an effort to make BPaaS our next pillar of business.
- We will enhance functions for efficient task management, schedule coordination, and information collection, which occur frequently among BPaaS operations. In addition, by developing a system that can manage orders for BPaaS projects and accurately as certain client needs, we will graft a seamless BPaaS experience onto business chat.

Medium-Term Management Plan #2

BPaaS Strategy

STRATEGY

Efficient Sales Expansion with Technology and Formalization

- Our approach to addressing a wide range of challenges faced by SMEs is to **provide services through formalized and packaged business solutions**, rather than individually consulting and designing operational workflows. This allows us to offer **highly efficient and profitable services**.
- By linking AI, business-related SaaS, and business chat, we aim to minimize operator workload or provide efficient services without the need for operators.

Hearing from Customer

We want to digitize employment contracts

Suggestions derived from standardized templates

For your company, the 'Employment Contract Template-X' would be ideal.

⋮

Profitability of our BPaaS

- Optimizing customer acquisition efficiency and average customer value through internal measures, while **improving operational efficiency by transferring operations to AI agents**
- The dramatic evolution of AI is also a driving force, and **our BPaaS profitability is expected to improve significantly**.

Configuring Services That Achieve Both 'Breadth' and 'Depth'

- We provide comprehensive support for non-specialized tasks through TAXITA, encompassing 'Breadth', while offering specialized expertise, 'Depth' through M&A and alliances.
- This combination allows us to offer one-stop support for our customers' needs.
- Additionally, our subsidiary MINAGINE provides BPaaS for human resources and Personnel Management. Other specialized fields will be covered early on with a focus on M&A.

Medium-Term Management Plan #3

Incubation Strategy

STRATEGY

R&D Approach of Our Incubation Strategy

- We will execute a strategy to reinforce the Group's unique assets and positioning.
- We aim to create value-added services that will become **a third pillar of discontinuous growth** following business chat and BPaaS.

Expand Customer Data and Promote Marketing

- Expand customer demographic data (objective data) through expansion of our business chat customer base and accumulate customer psychographic data (subjective data) through growth of our own media and other customer communications.
- Improve marketing efficiency** by expanding customer data quantitatively and qualitatively. We can expect to **expand the customer base further** through more effective and comprehensive marketing activities.

Utilize AI and Maximize Platform Earnings

- We can develop individually tailored AI technology by utilizing customer data and text data accumulated through business chat.
- As business chat is a business communication platform where users spend large amounts of time, it already serves as a point of contact where AI and people can talk to each other.
- **We will maximize earnings from business chat as a platform** by leveraging and deploying AI technology.

Creating a Third Pillar to Become a Core Business

- We are creating a third core pillar of business, following business chat and BPaaS.
- We are creating a new business that matches our vision and mission by leveraging our strengths, such as our “overwhelmingly high-value platform” and a “large-scale operational engine that represents a hybrid of tech and people.”

kubell BPaaS Fund Investment Strategies

- To acquire BPaaS capabilities and create new businesses, in FY2021 we launched a CVC fund, the **kubell BPaaS Fund**.
- The objective is to invest in and strengthen alliances with companies that share our attributes, and then refer Chatwork customers to them. While **returning our investment through the customer referral fees we receive**, we also **target future capital gains by growing portfolio companies**.
- We acquired MINAGINE Co., Ltd., as a wholly owned subsidiary in January 2023. Any synergies that result will go toward **expanding further investment opportunities**.

Long-Term Vision, Roadmap

Long-Term Vision

“Chatwork” upgrade to “**Super app for business**” which includes BPaaS

- Super app for business: apps that become platforms of which function as a **starting point for various businesses**.
- Business chat tools have the advantage of being business platforms, because **users spent more time** with these products compared with other SaaS tools.
- We achieve an environment where **SMEs can focus on their core business** by providing SaaS, BPaaS, and various management support through our service.

Second Quarter of FY2026 Results

Appendix2 | Details of Our Services

Business Chat 'Chatwork'

Evolution of Business Communications

Differences in written content by communication methods

- Emails contain many formal greetings and standard phrases, and it takes time and effort to get to the point.
- Business chat allows you to share what you want to say concisely and quickly.

E-mail

To

Greetings

Thanks for the other day
and agenda of this e-mail

Point

Closing words

signature

Business chat

Accelerate Business Collaboration

Create group chat for different teams, projects, and clients

- Within the group chat, participants can interact with multiple people at the same time to facilitate smooth information-sharing.
- Chat enables closer customer communications than via email, creating a stronger sense of connection.

Get enthused about work

We want to make work more exciting and inspiring, revitalizing the workplaces through more invigorating communications.

We cultivate a solid understanding of how people work and facilitate a working style that is unfettered by the constraints of time or location.

“Change starts with Chatwork.”

We released a brand movie expressing our desire to be an activator of business by guiding the success of each person with the power of technology

<https://youtu.be/3NHp8caltK0>

*1 We stopped accepting new applications for the personal plan at the end of January 2021. We also reduced the minimum number of users under the business plan from five to one. Implementing this change means that even individuals can apply. People currently using the personal plan can continue to do so.

Features of Chatwork's Services

Easy to use

The interface and functions are designed to mainly target business professionals who are not IT experts. The service is easy for anyone to use and requires no complicated customization.

Open platform

We employ an open platform-based approach that enables seamless internal and external communication using a single account. In many cases, the platform is also used externally with customers and business associates.

Freemium

Services are provided using a “freemium” model that allows unlimited continued use free of charge. Users can casually recommend Chatwork to customers and business associates, then switch to a premium paid plan once usage intensifies.

Growing Use in the SME Market

- Few people with detailed IT knowledge in the company
- No budget for investing in IT
- Want to use the same tools as customers and associates

Proportion of Paying Users by Company Size

Companies with 300 or fewer people account for 96.8% of paying users.*¹

Note: The customer base is stable, with most of the paying users being SMEs and without much dependence on specific companies.

Positioning in the Industry

Target segments

- We have two major competitors, but these companies focus on different target segments.
- As the market penetration rate of business chat tools is still low, the companies are working to develop new markets in their respective domains.

Strengths of Chatwork

A Service Structure Whose User Base Continues to Grow **Exponentially**

- Chatwork is easy to use for communication with customers and business associates thanks to the open platform-based approach, which enables seamless internal and external communications, and the freemium model that allows users to start using the software free of charge. Because of this, the user base continues to grow exponentially as it is introduced through referrals.
- Entry of competitors has not affected growth in the Chatwork's user base.

Number of Registered IDs

Market Entry by Competitors

- 1 **August 2013**
Release by Company A
- 2 **March 2017**
Release by Company B
- 3 **November 2017**
Release of Japanese version by Company A

Chatwork Revenue Growth by Cohort

- Growth in income due to more internal users and customers upgrading to premium plans exceeds the downward impact of canceled contracts.
- The net revenue retention rate^{*1} is over 102%^{*2}.
- The monthly retention rate is extremely high, at 99.77%^{*3}.

^{*1} NRR rate = (ARR at beginning of period - revenue churn on a monthly basis + revenue expansion on a monthly basis) / ARR at beginning of period

^{*2} Stock revenue as of Dec. 31, 2024 from billing customers as of Dec. 31, 2023 ÷ Stock revenue from Dec. 31, 2022 to Dec. 31, 2023

^{*3} Monthly continuation rate is indicated as "1 - churn rate." Churn rate refers to the rate of churn to the number of registered IDs. The figure indicates the 12-month average value from Apr. 31, 2025 to Mar. 31, 2026.

Business Chat Adoption Case: Manufacturing Industry

Yamamoto Seiko Co., Ltd.

Mr. Imanishi,
Production Control

Yamamoto Seiko Co., Ltd.

Osaka-based Yamamoto Seiko Co., Ltd. is a technical trading company and parts manufacturer with a long history (currently in its 67th year of operation). It collaborates with 250 partner companies to develop, manufacture, and ensure stable supply of components that underpin Japan's industries.

[Link to article](#)

Size	51–100 users
Industry	Manufacturing, production
Purpose and effect	Enhance efficiency of information sharing, and support mobility (usability on the go)

Rapid responses to sales and project inquiries with Chatwork! Revenue and profit growth for three consecutive years

- Needed an information sharing system to reduce the burden on small and medium-sized local factories (partner companies).
- When quality issues arose, responses were sometimes delayed.
- Sharing information with sales section employees, who are often out of the office, proved difficult, resulting in missed opportunities.

- Introduced Chatwork, a simple and free tool, to facilitate interaction with partner companies.
- Chatwork is now used to rapidly share photos and diagrams of defective parts.
- The use of a chat system contributes to seamless information sharing with sales staff working outside the company.

- The introduction of Chatwork, coupled with organizational reforms, has driven a 115% YoY increase in revenue.
- Gained customer trust by establishing a fine-tuned system to immediately address quality issues.
- Accumulated experience in how to transform the company through successive improvements.

BPaaS

(Business Process as a Service)

About BPaaS

- BPaaS is short for Business Process as a Service. Rather than just software, BPaaS is a cloud service that provides business services themselves, allowing facilitating **cloud-based business process outsourcing (BPO)**.
- BPaaS, the next upstream layer from SaaS in cloud-based services, will be the **next trend**.

BPaaS is the main player in achieving DX in the majority market

- Choosing and mastering SaaS is **mainly done by advanced users** who are knowledgeable about IT.
- For the **majority market, which accounts for more than two-thirds of the population**, it is difficult to manage and use a variety of SaaS products with different usability.
- To achieve DX in the majority market, it is **effective to use BPaaS** to drive DX by winding up SaaS and AI for each business process and on behalf of customers.

SaaS

Solving business issues through DX on your own

Users suited to SaaS

Tech-savvy early adopters in IT

- Can select tools on their own
- Management and employees can use the tools efficiently

BPaaS

Requests for entire business process and DXing are also outsourced

Users suited to BPaaS

majority

- Difficulty in decision making to adopt SaaS
- Difficulty in using SaaS

Actively utilize SaaS and AI in the work we perform

Service development in the BPaaS

- The current flagship products of our BPaaS business are **Chatwork Assistant** and **Chatwork Personnel Management**.
- We are actively expanding our service areas to cover the entire range of **non-core business operations** for SMEs.

※Our Customer Satisfaction
Survey on 2022

Accurate and Prompt Support

One of our group company, MINAGINE, which specializes in personnel management, will support you. We have over 20 years of experience and work as a team of multiple people, allowing us to provide accurate and prompt support.

Available with a wide range of tasks

In addition to payroll calculations, we also handle resident tax renewals, year-end adjustments, and bonus calculations. We can also handle My Number and directly deal with employees regarding joining and leaving your company.

Comprehensive labor support

We operate alongside a certified social insurance and labor law firm, enabling us to handle various administrative procedures on your behalf.
We also offer services such as reviewing and revising work rules and internal company regulations.

Service Overview about Chatwork Personnel Evaluation System

Providing everything you need to make your personnel evaluation system a success, including construction and operation support.

Service: Personnel evaluation system construction and operation support

Price: Varies depending on desired services and number of employees

みんなの人事評価

System Construction

We will create a simple and easy-to-use personnel evaluation system in as little as three months. We aim to create a simple system that is easy for employees to operate.

Operation Support

We don't just provide construction, we also provide operational support. We will help you settle in by providing training and support once a month.

Reducing man-hours through Systemization

The system can be used to complete everything from goal setting to evaluation. This will reduce the amount of work required for distributing and compiling evaluation sheets.

Appendix3 | Sustainability

Sustainability Vision

A society where everyone enjoys working and where creativity abounds

Our mission is "making work more fun and creative." People spend much of their lives working, and that time should not be spent only to earn money. We want to create a society that enables as many people as possible to enjoy their work more and express their creativity fully and freely to achieve their dreams and aspirations.

We believe that more people will work to actively achieve their dreams and aspirations, which will enrich their lives and lead to value creation that will transform our society into one that is more prosperous and sustainable.

Achieving this sustainability vision requires collaboration with our stakeholders, and we are committed to co-creating a sustainable society together.

The Value Creation Process

MISSION

Making work more fun and creative

Management Capital

Manufactured Capital

- High-value cloud infrastructure and robust information security
- Development and operational framework that promotes AI utilization

Intellectual Capital

- Customer base of approximately 1,004,000 companies and 8.23 million registered IDs
- Deep expertise in creating user-friendly services for SMEs, including those unfamiliar with business processes and IT

Human Capital

- Diverse talent with varied backgrounds and specialized knowledge supporting our products and operations
- An organization that values mission alignment and mutual support within a culture that encourages challenges and growth

Social and Relationship Capital

- DX solution partnership business
- 13 CVC portfolio companies
- User community
- External network related to SaaS product development and operations

Material Issues

Identification of 11 material issues

Creating social value through our business

Issues related to strengthening the foundation for value creation

Contributing to the resolution of global social issues

Business Model

Platform × DX

BPaaS

(Business Process as a Service)

We undertake non-core operations for companies facing challenges with in-house DX, driving their digital transformation. We aim to serve as the headquarters for all SMEs.

Business Chat

A highly platform-oriented chat service that has spread through word-of-mouth and is used daily by many people, regardless of industry or job type.

SME Market

Value for Society

Our Vision for 2030

- Improving the productivity of Japanese SMEs
- Creating an environment where companies can focus on their core business
- Addressing and resolving labor shortages in SMEs
- Job creation
- Achieving net-zero CO2 emissions (Scope 1+2)

Medium-Term Management Plan 2026

No. 1 BPaaS company for SMEs

- The No. 1 BPaaS company for SMEs
- Revenue: JPY 15 billion
- EBITDA Margin: 10-15%
- Annual Revenue Growth Rate (2024-2026): 30%

Materiality (Key Issues) for Realizing the Mission

- To realize our mission, we have identified key issues that the Group needs to address over the medium to long term on both the financial and non-financial fronts. We have defined “11 key issues for realizing our mission and vision.”

Actions and KPIs Leading to 2030 Goals

- Listed below are the actions and KPIs leading to 2030 goals corresponding to key issues that were identified as being “very important” for both society and the Company.

Category	Key issues	Actions and KPIs leading to 2030 goals
Social value creation through business	Improving labor productivity at SMEs through DX	Number of Japanese SMEs using our business platform: more than 1 million
	Creating human resources who can work in a fun and creative way	Credo ambassadors educate employees about our values Conduct engagement surveys
Enhancement of value creation infrastructure	Ensuring reliable quality as business infrastructure	System uptime for IT services provided: 99.5% or higher on an ongoing basis
	Advanced information security and privacy protection	Enhanced security management across the entire company Critical security incidents: 0
	Conducting sustainability management to achieve the corporate philosophy	Training for basic sustainability and ESG Training for new employees on kubell Sustainability Initiatives

kubell Sustainability Website

We are pleased to announce that we have launched a sustainability website to inform our stakeholders about our environmental, social, and governance (ESG) initiatives to realize a sustainable society.

As stated in our Sustainability Vision, of being "A society where everyone enjoys working and where creativity abounds," we are determined to contribute to the realization of a sustainable society together with our stakeholders by taking social issues seriously and sincerely addressing the key issues we have identified. Please have a look.

Shareholder Benefit Plan

We aim to increase understanding of our company as more people use our services and encourage their long-term support for the company's growth.

Shareholder eligibility

- People who have held shares continuously for two record dates (six months) in the company's shareholder register, each year as of June 30 and December 31.
- Shareholders registered as holding at least one share unit (100 shares).

Benefit details

- Shareholders can receive one ID per shareholder number for our paid personal plan^{*1}.
- The monthly fee is waived as long as the party continues to hold the company's shares.

^{*1} Although we no longer offer the paid personal plan, due to our integration of the personal plan into the business plan, we will continue to offer this plan to shareholders.

Masaki Yamamoto

Representative Director ,President, Senior Executive Officer & CEO

Masaki Yamamoto founded EC studio (currently kubell Co., Ltd.) in 2000 while still enrolled in university. Since then, he has been involved in developing a wide range of services as CTO in charge of technology, planning and release of Chatwork, a cloud-based business chat tool, in March 2011. Along with leading development of the tool as an engineer, he has grown it into the company's core business in his role as executive officer. In June 2018, he was appointed CEO of kubell Co., Ltd. He was awarded the Venture Manager Prize at the 45th Keizaikai Grand Prix.

Strengths as CEO

- Involved with the company's core product, Chatwork, from the outset as a planner, developer and executive officer
- As a board member since founding, has overseen various aspects of the company, including technological development, business operations, and corporate affairs
- **As a CEO with technological expertise**, capable of making decisions based on an in-depth understanding of technological trends.

Director & Senior Executive Officer

Naoki Inoue, Director, Senior Executive Officer & CFO

Naoki Inoue is a graduate of Waseda University. After holding positions at strategic consulting firm Roland Berger, Dell, and other companies, he joined Recruit in 2008 and was involved in new business development and M&A. Having supervised the acquisition of Indeed in 2012, he was assigned to the U.S. to handle post-merger integration (PMI). In 2015, he was assigned to the U.K. to supervise PMI following the acquisition of Treadwell. In November 2017, after returning to Japan, he joined Chatwork Co., Ltd.(currently kubell Co., Ltd.) as CFO. He was appointed as director and CFO in March 2019. In October 2023, he was appointed Director & Senior Executive Officer, CFO.

Shoji Fukuda, Director, Senior Executive Officer & COO

Shoji Fukuda joined ITOCHU Corporation in 2004, where he was engaged in new business development and investment operations related to the Internet. In 2013, he joined SMS where he supervised the entire nursing care area centering on Kaipoke, a management support service for nursing care operators, and Kaigo Job, a recruitment and career change information service for nursing care workers. In 2018, he was appointed as executive officer of the company. In January 2019, he became an external director of Chatwork Co., Ltd.(currently kubell Co., Ltd.). He joined kubell Co., Ltd. in April 2020. Following appointment as executive officer, CSO, and the general manager of Business Headquarters in July 2020, he was appointed director and COO in April 2022, and Director & Senior Executive Officer, COO in October 2023.

Executive Officer

Go Kiritani, Executive Officer, CSO & Senior Vice President of Business Division

He joined a power-related venture startup in its founding phase while still in university, where he was involved in establishing joint ventures and launching multiple businesses, and his contribution made the company unicorn. Later, he transitioned to ABEJA, an AI venture, where he served as the head of data-related services. In October 2020, he joined Chatwork Co., Ltd.(currently kubell Co., Ltd.), led the promotion of BPaaS as a unit manager. In January 2024, he was appointed as an executive officer and head of the Incubation Department. He is responsible for new business promotion and R&D. He was appointed CSO in July 2025, assumed current position in January 2026.

Ryoichi Okada, Executive Officer & Deputy Senior Vice President of Business Division

After working for Showa Leasing Co., Ltd., Mr. Okada joined the Rakuten Group, Inc. There, he took part in the launch of an e-commerce business in the BtoB domain and gained business management experience. He then moved to SMS Co., Ltd., where he was active in business development. In April 2017, took charge of Kaipoke, driving SMS's elderly care operators business. He joined Chatwork Co., Ltd.(currently kubell Co., Ltd.) in May 2022. In January 2023, he became senior vice president of the Incubation Division, and in October 2023 he was appointed to the position of executive officer. From April 2024, he manages BPaaS Division , assumed current position in January 2026.

Nozomi Tokuhara, Executive Officer, CPO & Deputy Senior Vice President of Product Division

After starting a business as a student, he worked in product development and new business development for several listed companies, before moving to LINE Corporation (now LINE Yahoo! Corporation), where he promoted the launch and growth of a wide range of businesses, including B2B mini-apps, B2C chat room monetization, and healthcare services. After serving as General Manager of Product Management for the Quick Commerce business, he led the digital field and new business development as CPO and General Manager of New Business Development at Muji Co., Ltd. In January 2025, he joined kubell Inc. and was appointed Executive Officer and CPO in July of the same year. Assumed current position in January 2026.

Yuki Tanaka, Executive Officer, CTO & Deputy Senior Vice President of Product Division

After developing web-based systems for a system integrator, Mr. Tanaka joined Chatwork Co., Ltd.(currently kubell Co., Ltd.) in 2013. He has been in charge of numerous projects including web front-end development for UI renewal projects, REST API development for external use, and message search server renewal. Later, as an engineering manager, gained management experience across a wide range of product areas. He became senior vice president of the Product Division in March 2023, and in October 2023 he was appointed to the position of executive officer. In August 2024, he was appointed to the position of deputy senior vice president of communication platform. He was appointed CTO in July 2025 , assumed current position in January 2026.

Executive Officer

Shinya Saito, Executive Officer & Senior Vice President of People Division

After working for a consulting firm and DeNA Co., Ltd., Mr. Saito started his own business in 2014. He developed this business, which focused on supporting the business development of small and medium-sized enterprises. He then joined ZUU Co., Ltd. in 2018, where he oversaw corporate activities as an executive officer. He joined Chatwork Co., Ltd.(currently kubell Co., Ltd.) in 2020. In January 2023, he became senior vice president of the Communication Platform Division, and in October 2023 he was appointed to the position of executive officer. From January 2025, he manages People Division.

Shinsuke Hase, Executive Officer & Senior Vice President of Administration Division

After working at a real estate company and a consulting firm, in 2013 Mr. Hase joined Oisix Inc. (now Oisix Ra Daichi Inc.) where, as the head of the finance and accounting department, promoted M&A and PMI. In 2019, he moved to Japan Post Capital Co., Ltd., where he invested in several companies as part of the investment department. In December 2022, he joined Chatwork Co., Ltd.(currently kubell Co., Ltd.) as senior vice president of the Administrative Division, and in October 2023 he was appointed to the position of executive officer.

Gen Sawaguchi, Executive Officer, Senior Vice President of Management Planning Division

After gaining experience in corporate revitalization consulting, M&A advisory services, and M&A and management planning (at a major telecommunications company), Mr. Sawaguchi was involved in the management of several venture companies. He held positions such as director & COO and business manager at food delivery service provider Star Festival Inc., online negotiation system provider bellFace Inc., and healthcare startup CUC Inc. In February 2024, he joined Chatwork Co., Ltd.(currently kubell Co., Ltd.) as the head of the Management Planning Office, and was appointed as an executive officer in March of the same year. From June 2025, he will be in charge of the communication platform division in addition to the management planning division.

Outside Directors and Audit & Supervisory Committee member

Tomohiro Miyasaka Outside Director

Through SBI Holdings, the financial holding company of a comprehensive internet-based financial group, in 2006 Mr. Miyasaka was involved in the launch of the current SBI Sumishin Net Bank (investors: Sumitomo Trust and Banking and the SBI Group). He joined GMO VenturePartners in 2008, becoming a director and partner in 2012. Appointed as an Outside Director of kubell Co., Ltd. (formerly Chatwork Co., Ltd.) in March 2021.

Akiko Kumakura Outside Director (Full-time Audit & Supervisory Committee member)

In 2003, Ms. Kumakura joined Asahi Audit Corporation (now KPMG AZSA LLC), where she primarily engaged in accounting audits and IPO support services. After leaving that company, she provided internal audit, internal control evaluation support, and other services, and opened the Kumakura Certified Public Accountant Office in 2017. In the same year, she became an outside auditor at Bank of Innovation, Inc. In 2019, she was appointed as an outside director and a member of the Audit & Supervisory Committee at the same company. Thereafter, she became an outside auditor at GiXo Ltd. in 2020, and an outside director at Yaruki Switch Group Holdings Co., Ltd. in 2022. Appointed as a Full-time Audit & Supervisory Committee member of kubell Co., Ltd. (formerly Chatwork Co., Ltd.) in March 2024.

Outside Directors and Audit Committee Member

Masayuki Murata Outside Director/Audit & Supervisory Committee member

Mr. Murata joined the Osaka Securities Exchange in 1991. He was appointed executive officer in 2003 and was responsible for the launch of the OSE Hercules market. After the Osaka Securities Exchange and the Tokyo Stock Exchange merged, in June 2013 he was appointed as an executive officer of the Tokyo Stock Exchange, where he was in charge of the listing promotion division. In April 2018, he established Public Gate LLC to provide mentoring to management teams aiming to take their companies public. In March 2019, he was appointed as a part-time Audit & Supervisory Board member of kubell Co., Ltd.

Akenobu Hayakawa Outside Director/Audit & Supervisory Committee member

Belonged to Nakajima Transactional Law Office since 2005. Became a partner of the same office in 2010. Established HAYAKAWA BUSINESS LAW OFFICE in 2015. Appointed as an outside auditor of HENNGE Co., Ltd. in 2018, and of MonsterLabo Holdings Inc. in 2020. Engages in business activities mainly focusing on consulting for corporate governance and risk management in listed companies, as well as supporting growth strategies for venture companies. Appointed as an Audit & Supervisory Committee member of Chatwork Co., Ltd. (now kubell Co., Ltd.) in March 2023.

Fumiyuki Fukushima Outside Director/Audit & Supervisory Committee member

In 2005, joined Koyou Audit Corporation. Joined KPMG AZSA LLC, a limited liability company, in 2006 and engaged in IPO support, internal control audits, financial due diligence, and other related tasks. In 2014, appointed as a full-time auditor of Mercari, Inc., which was in its second year of establishment, and established management and internal control systems to support the company's growth. In January 2020, appointed as an auditor of Findy, Inc., and in May 2022, appointed as an auditor of Kashima Antlers Football Club, Inc. Appointed as an Audit & Supervisory Committee member of Chatwork Co., Ltd. (now kubell Co., Ltd.) in March 2023.
